

Department Admin Guide

What's inside your scope, and step-by-step instructions for adding and managing your department's information on the college website.

Every screenshot in this guide is captured directly from a real department-scoped account (Aeronautical Engineering) signed into the live portal — this is exactly what you'll see when you sign in.

CONTENTS

What's in this guide

01	Welcome & Your Access	What a Department Admin can and can't do
02	Signing In & Finding Your Way Around	Your sidebar and dashboard
03	Your Department Profile	About / Vision / Mission / Intake
04	Courses & Programs	Add, edit, and manage your programs
05	Facilities & Labs	Buildings, rooms, and laboratories
06	Department Activities	Seminars, MOUs, FDPs, expert lectures
07	Staff Profiles	Adding faculty and linking them to your department
08	Things to Watch Out For	Known quirks worth knowing before you hit them
09	Quick Reference	One-page cheat sheet

WHO THIS IS FOR

A user whose portal account is set to **Role: Editor** and **Access Scope: Department**, tied to one specific department. If you're not sure which scope your account has, check the small label under your name in the sidebar after logging in — it should read "**Department Admin.**"

SECTION 01

Welcome & Your Access

The admin portal is shared by everyone who manages the college website — but what you see is filtered to your own department. This section explains exactly where your department sits and what that means for your access.

▲ Your account is locked to this one box — and everything inside it

Every piece of content in the admin portal — a course, a lab, a staff profile — "belongs" to exactly one department (or is site-wide, in which case it's outside your access entirely). The portal automatically filters what you see and pre-fills your department wherever it can, so you'll never accidentally see or need to pick another department's data.

✓ YOU CAN

- Edit your department's public profile (About / Vision / Mission / logo)
- Add, edit, and remove Courses in your department
- Add, edit, and remove Facilities & Labs in your department
- Add, edit, and remove Department Activities (seminars, MOUs, expert lectures, FDPs, industry visits)
- Add and manage Staff Profiles for your department's faculty

✗ YOU CANNOT

- Create a new department, or delete your own department
- See or edit another department's data
- Touch Website CMS, Campus Life (Events/Gallery/Clubs), or System settings — these are managed centrally
- Restore something you've deleted — only a global admin can undo a delete
- Manage other portal users or their access

WHY THIS MATTERS

Because your access is enforced at the database level (not just hidden in the menu), trying to reach something outside your scope — by guessing a URL, for instance — won't work even if you know the address. You'll just be sent back to your dashboard. This isn't a bug; it's the same protection that keeps other departments from touching *your* data.

SECTION 02

Signing In & Finding Your Way Around

Your global site administrator creates your account and sends you a temporary password. Once you're in, your sidebar is trimmed down to only the pages you can use.

Real screenshot — the Dashboard and sidebar for the Aeronautical Engineering department account.

⚠ ABOUT THE DASHBOARD'S SHORTCUT CARDS

Your Dashboard home page shows the same stat cards and quick links as everyone else's — including ones you can't actually open, like T&P Master Hub, Events, Blog & News, Recruiters, Homepage Layout, Trash & Recovery, and Media Library. Clicking one of these just bounces you back to the Dashboard.

- **Cards that do work for you:** Faculty & Staff / Staff Profiles, Departments, and Courses.
- For everything else, use the **left sidebar** instead — it only lists pages you can actually use.

ALSO NOTE

The numbers and "Recent Activity" feed on the Dashboard are site-wide — they include other departments' activity too, not just yours (notice the screenshot above shows 9 Events and 84 Homepage Layout items even though this account can't open either page). The "Structure" panel is more useful: it correctly shows **Colleges: 0** and **Departments: 1** for a department-scoped account — proof your access really is locked down to your own department, not just hidden in the menu.

💡 ONE LABEL QUIRK

The Dashboard's welcome banner calls you a "**Department Editor,**" while the sidebar chip on the left calls you "**Department Admin.**" Same access level, just two different labels used in two different parts of the portal — not a sign anything's wrong.

Your Department Profile

This page controls the content on your department's public "About" page. You can only edit your *existing* department entry — there's no Add or Delete button here, since departments themselves are created and removed centrally.

Real screenshot — top of the Department edit form. The pale box under "Metadata" is "Department Profile Fields," the box that matters.

FIELD (INSIDE THE "DEPARTMENT PROFILE FIELDS" BOX)	TYPE	WHAT IT DOES
About	Long text	Shown as your department's public "About" paragraph
Vision	Long text	Shown on your public department page
Mission	Long text	Shown on your public department page
Intake (seats per year)	Number	See warning below — currently not connected to the public page
Logo	Image upload	Works normally — click to upload your department logo

- **Only the "Department Profile Fields" box shown above actually appears on the website.** Scrolling further down the same form, you'll find a second, separate set of fields also called About / Vision / Mission (plus Overview, Established Year, Level, Degree Type, and others) — these look similar but currently don't show up anywhere public. Fill in the "Department Profile Fields" box, not the plain fields further down with the same names.
- **The Intake fields on this page don't yet feed your public page's UG/PG intake figures** — neither the "Intake (seats per year)" field in the profile box, nor the separate "Intake UG"/"Intake PG" number fields further down the form. Until this is fixed centrally, set intake per-course instead — see the Courses section, which does work correctly.
- **"Head of Department" currently shows no names to pick from** — it can't be set from this page yet. If you need it changed, contact your global site administrator.
- Logo upload works as expected — no caveats there.

SECTION 04 · ACADEMICS → COURSES

Courses & Programs

Unlike the Department page, Courses is fully yours: add, edit, or remove as many programs as your department offers. New courses are pre-filled with your department.

Real screenshot — "Add New Course," Department already pre-filled to Aeronautical Engineering.

- 1 Go to **Academics** → **Courses** and click **+ Add**.
- 2 Fill in **Name** and **Code** — both required.
- 3 Choose a **Degree Level** — Undergraduate, Graduate, Doctorate, or Certificate. Required.
- 4 Add the optional details you have on hand: Full Name, Short Name, Tagline, Description, Duration, Eligibility, Fees per Semester, Intake, Year Started.
- 5 Set **Status** to **Published** when it's ready for visitors, or leave it as **Draft** while you're still working on it.
- 6 Click **Save**.

FIELD	REQUIRED?	NOTES
Name	Required	Program name
Code	Required	Short course code

Degree Level	Required	Undergraduate / Graduate / Doctorate / Certificate
Full Name	Optional	Longer official name, if different
Short Name	Optional	
Tagline	Optional	One-line hook shown on listing cards
Description	Optional	Full program description
Duration	Optional	Free text, e.g. "4 Years"
Duration (Years)	Optional	Numeric — used for sorting/filtering
Eligibility	Optional	Admission eligibility text
Fees per Semester	Optional	Free text (not a strict number field)
Intake	Optional	Number of seats — this is the one that correctly shows on the public page
Year Started	Optional	
Brochure	Optional	Upload a PDF brochure for the course
Status	Has a default	Draft / Published / Archived

 TIP

Set the per-course **Intake** field here rather than relying on the Department page's intake number — this is the one visitors actually see.

SECTION 05 · ACADEMICS → FACILITIES / LABS

Facilities & Labs

These two sidebar pages both manage the same underlying information — a lab is simply a facility with its type set to "Laboratory." Use whichever fits what you're adding.

FACILITIES PAGE — GENERAL PURPOSE

- Any type: Campus, Building, or Laboratory
- More fields: Institute, Parent Facility (for nesting a room under a building), Category, Room Number, Address
- Use this for buildings, rooms, or general campus facilities

LABS PAGE — LABORATORIES ONLY

- Purpose-built, simpler form
- Auto-fills Type as "Laboratory"
- Has a dedicated **Highlights** list for bullet-point features
- Recommended** when you're specifically adding a lab

Real screenshot — "Add New Facility." Department is locked to Aeronautical Engineering; Institute and Parent Facility are not.

FACILITIES — FIELD	REQUIRED?	NOTES
Name	Required	
Facility Type	Required	Campus / Building / Laboratory

Institute, Parent Facility	Optional	Not locked to your department — Parent Facility lets you nest a room under any building sitewide, and Institute lists every institute. Just leave these blank unless you specifically need them.
Subtitle, Description	Optional	
Slug, Code, Category, Room Number, Address	Optional	

LABS — FIELD	REQUIRED?	NOTES
Lab Name	Required	Slug is generated automatically as you type
Status	Has a default	Published or Draft (no Archived option here)

Subtitle, Description	Optional	
Photo	Optional	Upload an image
Highlights	Optional	Add rows of Title + Description — shown as feature bullets on the public page

Real screenshot — the Labs page on this account. Note it reads "Manage labs across all departments" and asks you to pick one.

⚠ THE LABS PAGE WILL VERY LIKELY LOOK "WRONG" FOR YOU

Confirmed directly: on a Role = Editor / Scope = Department account (the standard way department access is granted — see your account details on the cover of this guide), the Labs page shows **"Manage labs across all departments"** and an open Department picker, exactly like a global admin would see —

instead of being locked to your own department. This is a display bug tied to how your specific account was set up, not a real permission gap:

- Just pick your own department from the dropdown before adding or editing a lab.
- Behind the scenes, saving is still enforced to your own department no matter what the page shows or lets you pick — you cannot actually save a lab against another department, even though the picker doesn't stop you from trying.
- If this gets confusing, use the **Facilities** page instead (Facility Type = Laboratory) — it's correctly locked to your department.

SECTION 06 · ACADEMICS → DEPT ACTIVITIES

Department Activities

Use this page for seminars, workshops, MOUs, expert lectures, industry visits, and faculty development programs (FDPs/STTPs). Full add/edit/delete access, auto-tagged to your department.

Real screenshot — "Add New Department Activity." Activity Type is a plain text box, and Document Url shows the Upload File / Paste URL toggle.

FIELD	REQUIRED?	NOTES
Title	Required	
Activity Type	Required	Free-text — must match one of five exact values. See box below.
Start Date	Required	
End Date	Optional	
Company / Organization	Optional	E.g. the MOU partner or visited company
Notes	Optional	
Document	Optional	Upload a certificate, MOU copy, etc. — see box below

⚠ ACTIVITY TYPE MUST BE TYPED EXACTLY LIKE THIS

There's no dropdown for this field yet — you have to type it. If it doesn't match one of these five values *exactly* (lowercase, with underscores, no spaces), the entry will silently not appear anywhere on the public site:

- `sttp_fdp` — STTP / Faculty Development Programs
- `expert_lecture` — Expert Lectures
- `seminar_workshop` — Seminars & Workshops
- `mou` — MOUs
- `industry_visit` — Industry Visits

⚠ **UPLOADING A PDF OR WORD DOCUMENT**

The Document uploader is built for images by default, so dragging in a PDF or DOCX won't work. Instead:

- Click the **"Paste URL"** toggle at the top of the uploader (instead of dragging a file in)
- Paste a link to the already-hosted document

If you don't already have the file hosted somewhere, ask your site administrator for help uploading it first.

SECTION 07 · STAFF & FACULTY → STAFF PROFILES

Staff Profiles

This is a guided, tabbed editor rather than a plain form — it walks you through the basics first, then lets you fill in the rest. You'll only ever see faculty already linked to your department, and can only assign people into your own department.

- 1 Quick Add.** Click **+ Add Faculty** and fill in Title, First Name*, Last Name*, Email*, and Phone. Save — this opens the full profile editor.
- 2 General tab.** Add Status, Profile Photo, Joining Year, Past Experience (years), and Bio.
- 3 Department tab — the important one.** Click **Add Assignment**, choose your Department (already limited to yours) and their Designation, and tick **Primary assignment** if this is their main role.
- 4 Achievements tab.** Add entries for Qualifications, Work Experience, Awards, Patents, Publications, or Research Projects — each with a Title, Year, and Description.
- 5 Expertise tab.** Type subject/interest tags one at a time and press Enter to add them.

Real screenshots — General tab (left) and Department tab (right), showing a real faculty member's existing assignment.

The image displays two side-by-side screenshots of a web application interface for a staff profile, specifically for Mr. Hardik Rohitkumar Vala. Both screenshots show a top navigation bar with four tabs: General, Department, Achievements, and Expertise. The left screenshot has the 'Achievements' tab selected, showing a form titled 'ADD ACHIEVEMENT'. This form includes a 'TYPE' dropdown menu (currently set to 'Award / Honor'), a 'TITLE' text input field (with placeholder text 'e.g. Best Paper Award, M.Tech CS, 5 years at GTU...'), and two optional fields: 'YEAR (OPTIONAL)' (with '2023' entered) and 'DESCRIPTION (OPTIONAL)'. A red 'Add' button is at the bottom right of the form. Below the form, a dashed box contains the text 'No achievements recorded yet.' The right screenshot has the 'Expertise' tab selected. It features a text input field with placeholder text 'e.g. Machine Learning, VLSI, Data Structures...' and a red 'Add' button. Below this, a dashed box contains the text 'No expertise tags yet. Add areas of specialization above.'

Real screenshots — Achievements tab (left) and Expertise tab (right).

⚠ DON'T SKIP THE DEPARTMENT TAB

A staff profile with **no department assignment won't appear anywhere on the public site**, even if every other field is filled in. Always add at least one assignment on the Department tab before considering a profile "done."

DELETING A PROFILE

Removing a staff profile moves it to the trash rather than erasing it outright — but only a **global admin** can restore it from there. Double-check before you delete.

SECTION 08

Things to Watch Out For

A single page collecting every known quirk from this guide, so you can check back here quickly instead of hunting through each section.

⚠ DASHBOARD SHORTCUT CARDS THAT DON'T WORK FOR YOU

T&P Master Hub, Events, Blog & News, Recruiters, Homepage Layout, Trash & Recovery, and Media Library are all shown on your Dashboard but are outside your access — they'll just send you back to the Dashboard. Use the sidebar instead.

⚠ DELETES CAN'T BE UNDONE BY YOU

Anything you delete goes to a trash bin that only a global admin can open and restore from. Always double-check before deleting a course, facility, activity, or staff profile.

⚠ "HEAD OF DEPARTMENT" CAN'T BE SET YET

On the Department Profile page, this dropdown currently has no names to choose from. Contact your site administrator if it needs to be set.

⚠ DEPARTMENT PAGE'S INTAKE NUMBERS ARE DISCONNECTED

Neither the "Intake (seats per year)" field in the profile box, nor the separate Intake UG / Intake PG fields further down the form, currently feed the public page's UG/PG intake figures. Set per-course Intake numbers instead (Section 04) — those work correctly.

⚠ ONLY THE "DEPARTMENT PROFILE FIELDS" BOX ON THE DEPARTMENT PAGE IS PUBLIC

A second, separate set of About / Overview / Vision / Mission fields further down that same form isn't shown anywhere on the site. Only the matching fields inside the "Department Profile Fields" box are.

⚠ UPLOADING NON-IMAGE DOCUMENTS

On Department Activities, the Document uploader defaults to images. Use its "Paste URL" toggle to attach a PDF, DOCX, or other file via a hosted link instead.

⚠ ACTIVITY TYPE HAS NO DROPDOWN

Type it exactly: `sttp_fdp`, `expert_lecture`, `seminar_workshop`, `mou`, or `industry_visit`. Anything else won't show up publicly, with no warning.

⚠ STAFF PROFILES NEED A DEPARTMENT ASSIGNMENT

Without one on the Department tab, a profile stays invisible on the site no matter how complete the rest of it is.

⚠ LABS PAGE SHOWS "MANAGE LABS ACROSS ALL DEPARTMENTS"

Confirmed on this account type: an open Department picker instead of being locked to yours. Just pick your own department before saving — the save itself is still enforced to your department regardless of what the picker shows. Consider using Facilities (Type = Laboratory) instead, which is correctly locked.

NOT A BUG: THE DASHBOARD'S "DEPARTMENT EDITOR" LABEL

The Dashboard banner and the sidebar chip use two different words ("Department Editor" vs. "Department Admin") for the exact same access level. Cosmetic only.

SECTION 09

Quick Reference

One page to keep handy — what you can do on each screen, and the minimum fields to fill in.

PAGE	ADD	EDIT	DELETE	MINIMUM REQUIRED FIELDS
Department Profile	No	Yours only	No	— (edit existing only)
Courses	Yes	Yes	Yes	Name, Code, Degree Level
Facilities	Yes	Yes	Yes	Name, Facility Type
Labs	Yes	Yes	Yes	Lab Name
Dept Activities	Yes	Yes	Yes	Title, Activity Type (exact value), Start Date
Staff Profiles	Yes	Yes	Soft delete	First Name, Last Name, Email + a Department assignment

Questions, or need something that's outside your access? Contact your global site administrator — they manage Website CMS, Campus Life, System settings, and portal user accounts.
